Inspection

Consultancy

Your Key to Quality and Safety

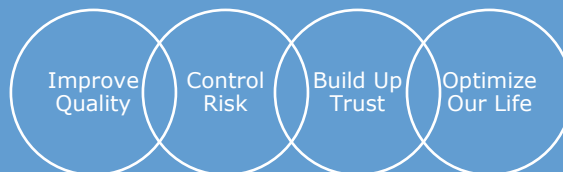

Located in Rotterdam, the Netherlands, CCIC Europe is one of the biggest overseas branches of China Certification and Inspection Group (CCIC), an independent third party certification and inspection organization dedicated to providing inspection, testing and certification services.

CCIC Europe has the experience and expertise in analytical chemistry and chemical risk assessment, and we ensure quality and safety of food ingredients, food products and chemical substances.

Your One-stop Solution Provider for China and EU Regulations

Food contact materials have to comply with a variety of regulations issued by the authorities. Based on a thorough knowledge of relevant legislations and standards, we are the dedicated partner offering all the expertise needed for FCM safety assessment according to the regulations of EU and China.

CCIC be around you, for a more reliable world!

Covering All Your Needs

Our related services cover:

- FCM testing
- GMP
- HACCP
- Manufacture auditing
- Risk assessment of raw materials
- EU and China regulations on FCM
- Toxicological assessment of chemicals
- Other related consultancy services

We also offer food approvals, compliance check, packaging issue management, package labeling regulations, testing strategies, tailor-made packaging projects and much more.

Accelerate Your Export Through a Safe Gateway

The services we provide are supported by ISO/IEC 17020 accreditation in our inspection function and ISO/IEC 17025 accreditation with our laboratory facilities. We have the best knowledge of current and prospective Chinese legislations.

Our outstanding facilities support testing physical attributes, toxicity, food grade CO2 and migration tests. This enables us to ensure all the necessary data will be obtained with high efficiency in order to accelerate your business.

Contact us to see how we can help you to cover your needs in Food Contact Material Regulations.
